Communicable Disease Policy for Athletes and Volunteers

The world health community, including various government agencies, monitors closely the emergence, spread, and management of pandemic and other communicable diseases. The public health emergency that has resulted from the spread of the coronavirus (COVID-19) has educated organizations, including SSSF, about the essential steps to be taken to protect employees and those they serve. To maintain a safe environment by adopting practices that are designed to protect the health of athletes, volunteers and others who attend our events, SSSF has adopted this Communicable Disease Policy for Athletes and Volunteers.

We also want to ensure the continuity of business operations to the extent possible during a pandemic disease. The policies described below are intended to achieve these objectives. As always, our efforts will be guided by and in accordance with all applicable federal, state and local laws and the guidances issued by public health agencies and governmental entities. We will continue to monitor information and advice on this important issue and modify or supplement these policies as necessary. If you have questions or concerns, please contact your head coach, state advisor or national staff member.

Preventing the Spread of Disease At Events

We ask all athletes and volunteers to cooperate in taking steps to reduce the transmission of disease when they are attending and participating in SSSF-sponsored meetings and events. The following steps are strongly encouraged:

- Stay home if you are ill or experiencing any symptoms.
- Follow respiratory etiquette, by covering your mouth if you sneeze or cough, and discarding tissues used when sneezing.
- Practice social distancing by maintaining a distance of at least six feet from other people, to the extent practicable.
- Wear cloth face coverings whenever social distancing cannot be maintained.
- Engage in frequent hand washing with warm, soapy water for at least 20 seconds.
- Use alcohol-based hand sanitizers that are provided to you at events.
- Regularly clean and disinfect surfaces and equipment at meetings and events.
- Report any health or safety concerns to your head coach and event director (if at an event).

Reporting Procedure

Those athletes and volunteers who demonstrate signs or symptoms of a communicable disease that poses a credible threat of transmission at events are asked to report that potential infection or disease immediately to your head coach and event director (if at an event).

Staying Home When Ill

During flu season and/or a pandemic disease, it is critical that athletes and volunteers do not attend or participate in events while they are ill and/or experiencing the following symptoms: fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills and fatigue. Currently, the Centers for Disease Control and Prevention recommends that people with influenza-like illness remain at home until at least 24 hours after they are free of fever (100 degrees F or 37.8 degrees C) or signs of a fever without the use of fever-reducing medications. Contact your personal physician or check the Centers for Disease Control and Prevention's website at <https://www.cdc.gov/> for recommendations about returning to normal activities following any sort of influenza-like illness.

If SSSF determines that an athlete's or volunteer's continued presence at events poses a risk to the health or safety of the volunteers, athletes and/or others in attendance, the individual must submit a statement from his or her attending health care provider that his or her continued presence poses no such risk.

SANCTIONS

When an athlete is believed to have committed a major offense the Lead Instructor will report the incident to the Shooting Sports Coordinator at the Arizona Game and Fish Department immediately. The Department will immediately conduct an investigation during the investigation the athlete will be suspended. If the offense is confirmed the athlete will be suspended from the program for the minimum duration of one season. Major offenses may also result in expulsion from the program. After an athlete has been suspended, reinstatement may occur only on athlete appeal (see athlete appeal).

When an athlete is determined to have committed a minor offense or violation of the safety rules, the Lead Instructor and coaching staff will determine the duration of the athlete suspension. The incident and suspension will be reported by the Lead Instructor to the Department. The Department will review the findings by the lead instructor and may revise the finding and/or sanction.

Safety violations during SCTP events will result in one warning to the athlete. A second safety violation will result in the disqualification of the individual from the event. The exception to this is any incident involving major offenses or the placement of muzzles on an athlete’s toes which will result in immediate disqualification.

The Department retains the right to review any suspension. The decision of the Department after any review is final. The Department and Lead Instructor have the right to remove an athlete from SCTP for failure to adhere to the shooters code of conduct and/or sportsmanship and ethics contract at any time.

ATHLETE APPEAL OF SUSPENSION

An athlete removed from the program for first time major offenses may appeal for next season reinstatement. In no scenario will an athlete be reinstated for the same season in which they were suspended for major offences. The athlete is the only individual who may petition for reinstatement. No parent/guardian or coach may do it on their behalf.

An athlete petitioning for reinstatement must demonstrate that he or she is aware that there is no tolerance for that type of behavior in this shooting program. The athlete must demonstrate understanding of the code of conduct, sportsmanship and ethics, how it applies to the shooting sports and in which way they violated the code of conduct and the spirit of the codes. The appeal must be accompanied by a letter explaining why they should be reinstated into the program directed to the Shooting Sports Coordinator.

Arizona Scholastic Clay Target Program (SCTP)
Arizona Game and Fish Department
5000 West Carefree Hwy
Phoenix, AZ 85086

This information will then be evaluated by an appeal board at the Arizona Game and Fish Department composed of the Shooting Sports Coordinator, Hunting and Shooting Sports Program Manager, Wildlife Recreation Branch Chief, an individual from the Department's Law Enforcement Branch, and a member of the advisory council . If needed, the petitioner will be asked to appear before the board. The Appeal Board will evaluate all information and decide on possible reinstatement.

Once the Appeal Board determines that reinstatement is possible it will be the final determination of the Lead Instructor of the Club if they will accept the athlete back into their club for the next or subsequent seasons. If the Appeal Board denies reinstatement the athlete may appeal the following year. Only one appeal per season will be permitted.

Rio Salado Target Terminators - Communicable Disease Policy for Athletes/Volunteers/Spectators

To maintain a safe environment, Rio Salado Target Terminators (RSTT) has adopted the following Communicable Disease Policy and practices that are designed to protect the health of athletes, volunteers and others who attend our events. We want to ensure the continuity of our program to the extent possible during a pandemic disease. The policies described below are intended to achieve these objectives. As always, our efforts will be guided by and in accordance with all applicable federal, state and local laws and the guidance issued by public health agencies and governmental entities. We will continue to monitor information and advice on this important issue and modify or supplement these policies as necessary. If you have questions or concerns, please contact your head coach.

Preventing the Spread of Disease at Events

We will require that the following protocols be adhered to by all athletes, volunteers, and family members while at the shooting range, or you will be asked to leave the range. These guidelines are subject to additions and/or revisions at any time:

- Stay home if you or anyone in your household are ill or experiencing any symptoms, or have had contact with anyone who has tested positive for COVID-19 in the past two weeks.
- Wear cloth face mask covering both nose and mouth at all times when outside of vehicles. (Face shields alone are not acceptable). If you are unable to wear a mask, please remain in your vehicle.
- Practice social distancing by maintaining a distance of at least six feet from other people, to the extent possible (except for families, or when an athlete is working with a coach).
- Engage in frequent hand washing with warm, soapy water for at least 20 seconds.
- Use alcohol-based hand sanitizers that are provided – including but not limited to before and after handling firearms.
- Regularly clean and disinfect high touch/shared surfaces and equipment at meetings and events.
- Report any health or safety concerns to your head coach and event director (if at an event).

Reporting Procedure

Those athletes and volunteers who demonstrate signs or symptoms of a communicable disease that poses a credible threat of transmission at events are asked to report that potential infection or disease immediately to your head coach and event director (if at an event).

Staying Home When Ill

During flu season and/or a pandemic disease, it is critical that athletes and volunteers do not attend or participate in events while they are ill and/or experiencing the following symptoms: fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills and fatigue. Currently, the Centers for Disease Control and Prevention recommends that people with influenza-like illness remain at home until at least 24 hours after they are free of fever (100 degrees F or 37.8 degrees C) or signs of a fever without the use of fever-reducing medications. Contact your personal physician or check the Centers for Disease Control and Prevention's website at <https://www.cdc.gov/> for recommendations about returning to normal activities following any sort of influenza-like illness.

If RSTT determines that an athlete's or volunteer's continued presence at events poses a risk to the health or safety of the volunteers, athletes and/or others in attendance, the individual must submit a statement from his or her attending health care provider that his or her continued presence poses no such risk.

I HAVE READ THIS COMMUNICABLE DISEASE POLICY, AND FULLY UNDERSTAND ITS TERMS, AND AGREE TO FOLLOW ALL THE ABOVE PROCEDURES WHILE AT RIO SALADO TARGET TERMINATOR EVENTS.
